**YAML**

**Subtitle formats**

The ETS and BeGlobal machine translation providers are now called Language Weaver Edge and Language Weaver Cloud

## 2. Installation

**\_Fresh installation tips**

**\_Upgrade tips**

## 2. Installation

### \_Fresh Installation

(Window Server 2016 Standard Edition)

#### Temp Folder

When referencing the TEMP folder location in the general.properties make sure this exists.

#### WS-Legacy APP

If WS\_CONFIG files do not exist, WS-LEGACY application will not start. For this to work you need to uncomment appender section of the general properties file.

## 2. Installation

### **\_Upgrading from WorldServer 11.6.1**

(Windows Server 2016 Standard Edition)

#### **CONSIDER THE FOLLOWING:**

With the removal of deprecated file types you need to take these notes into account.

- Remove the deprecated file types from your MIME types, type groups, project types, AIS properties and any other objects using them.
- All active projects should be completed. After upgrade ongoing jobs using deprecated file types will not work.

Re-configure all of the above using the newer versions of these file types.

## 3. UI Enhancements

**\_Change Assignees**

**\_Freeze columns**

**\_Filter by Language**

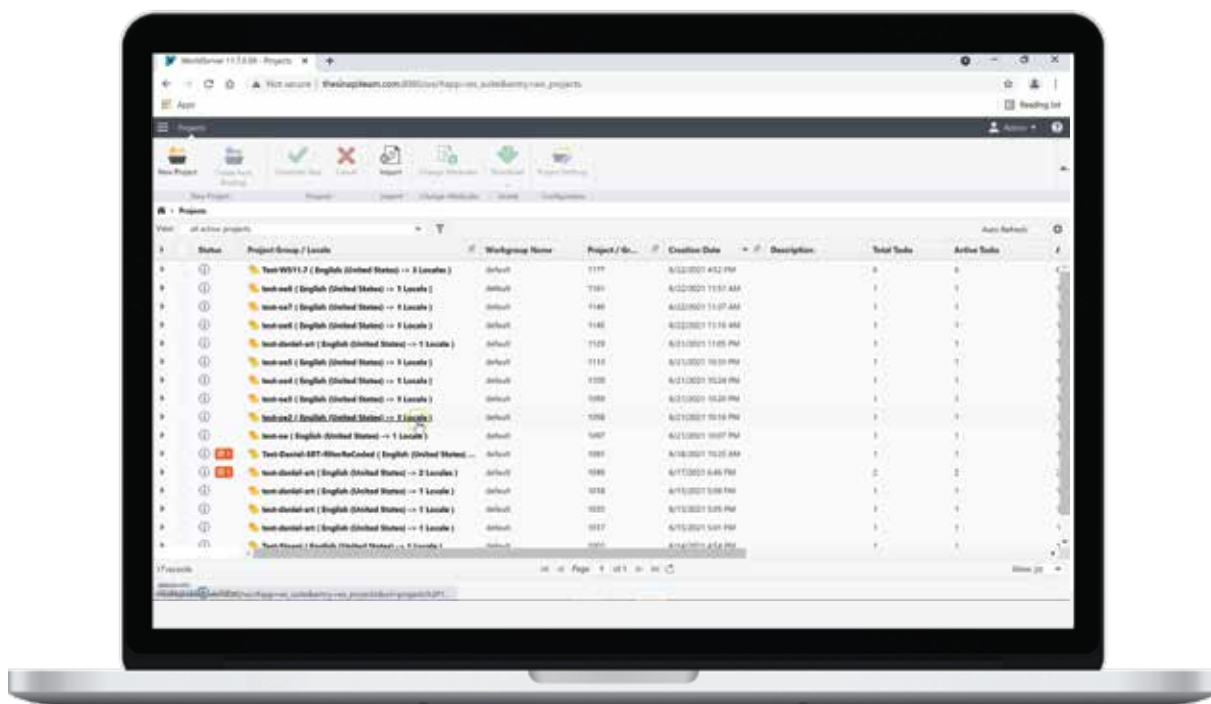

**\_Scoping information**

**\_FileTypes**

# 3. UI Enhancements

## \_Change Assignees

Can assign users for different languages withing the same project group

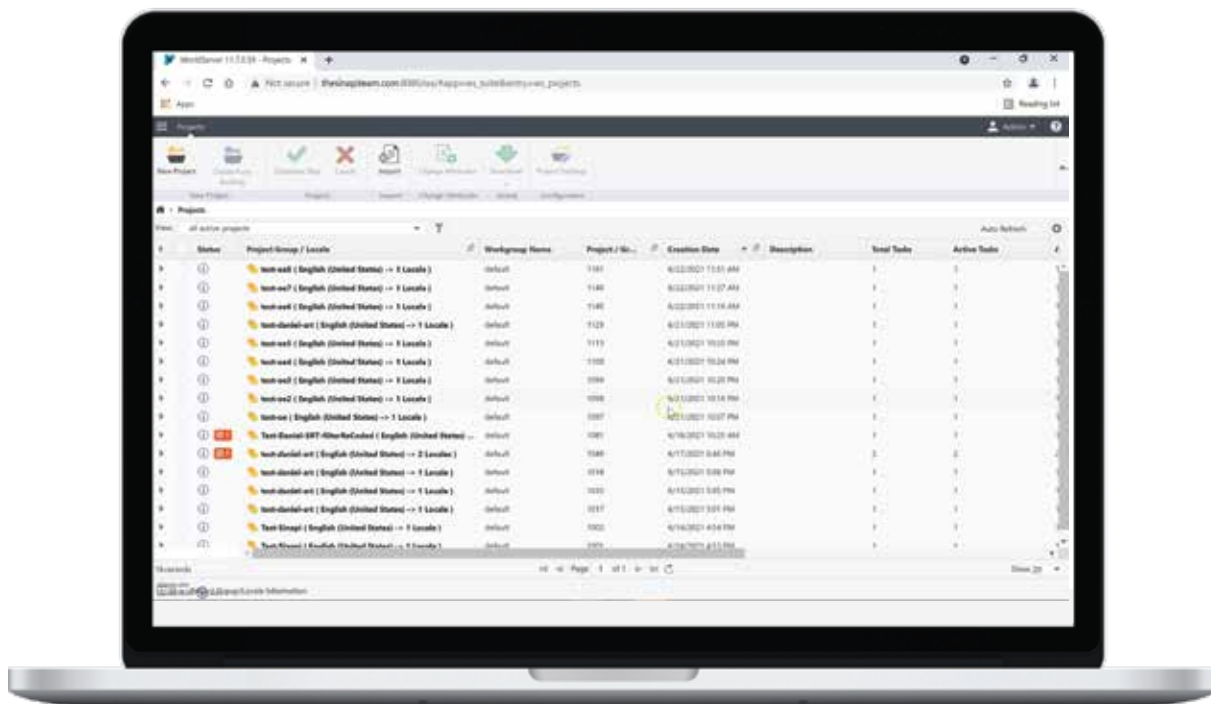

# 3. UI Enhancements

## \_Freeze columns

From Projects Dashboards you can now freeze columns while scrolling horizontally.

- Columns
- Project Group/Locale
- Project/Group
- Creation Date

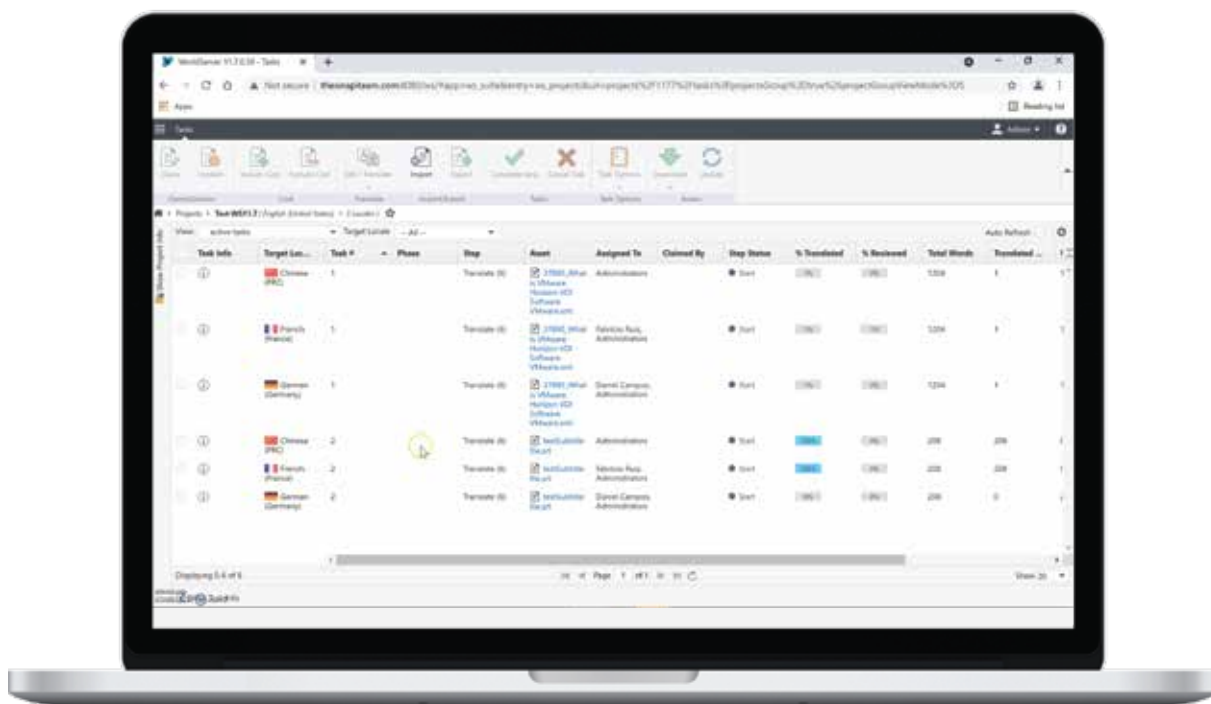

# 3. UI Enhancements

## \_Filter by Language

Can filter by target languages allowing you to set different languages at the same time.

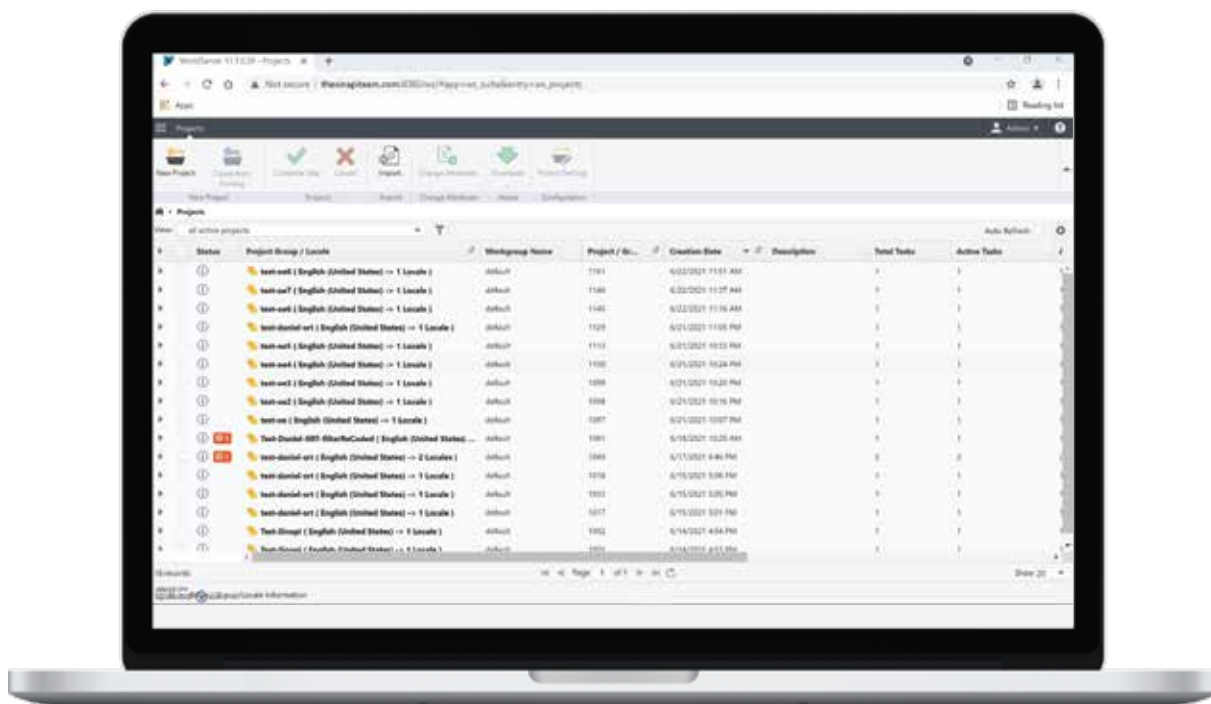

You can now start typing the locale.

# 3. UI Enhancements

## \_Scoping information

You can now Download an HTML version of the scoping information.

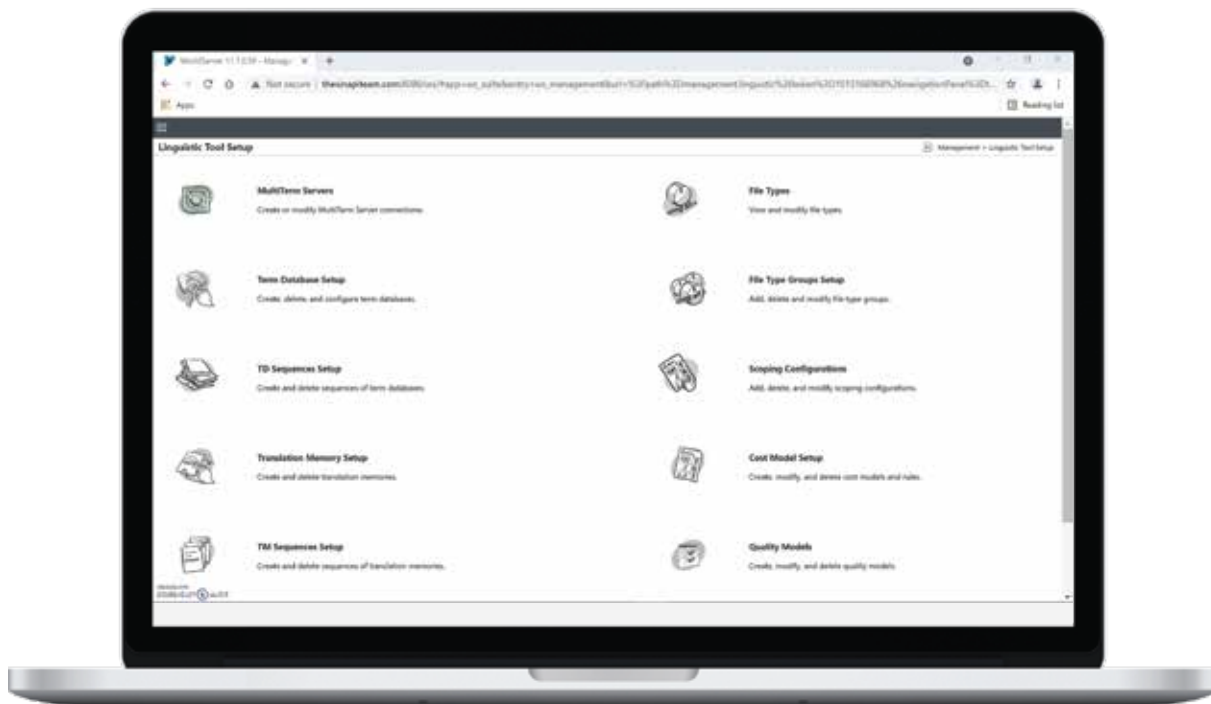

# 3. UI Enhancements

## \_File Types

They have been re-organized per tabs.

New File types have been added.

You can export preview versions + there is additional information about user modifying those.

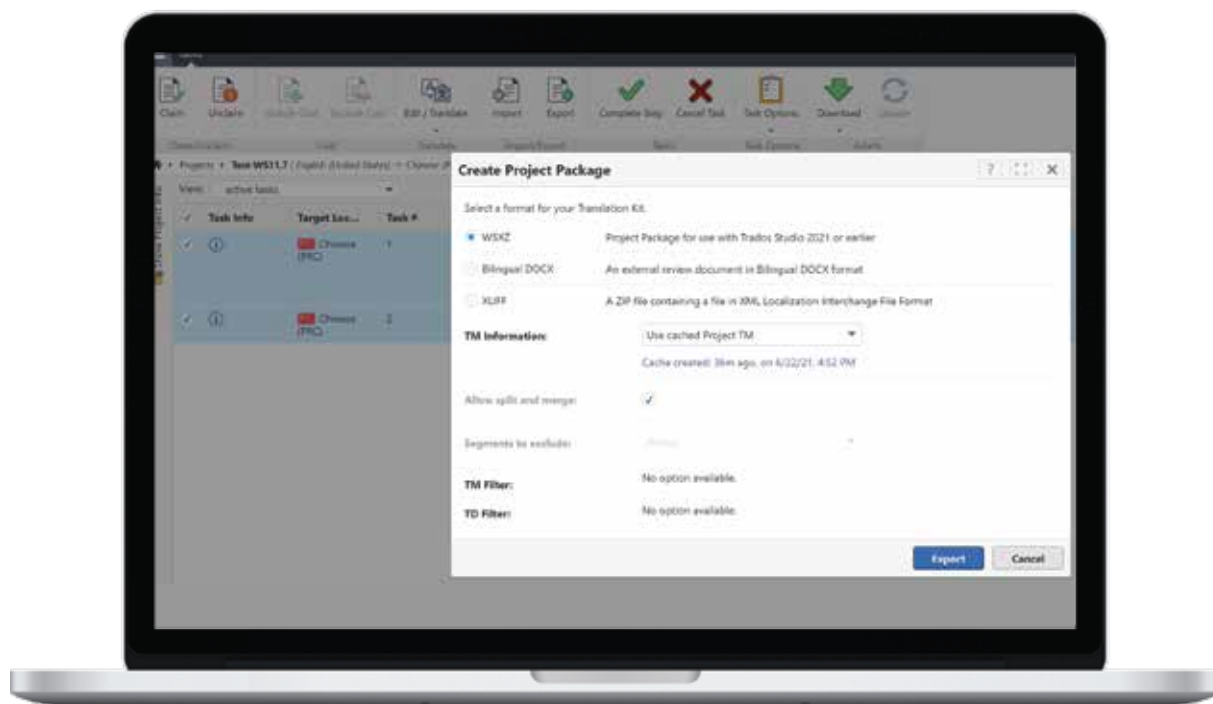

# 4. TM Chache

# 4. TM Cache

Fuzzy matches are now added to the TM cache.

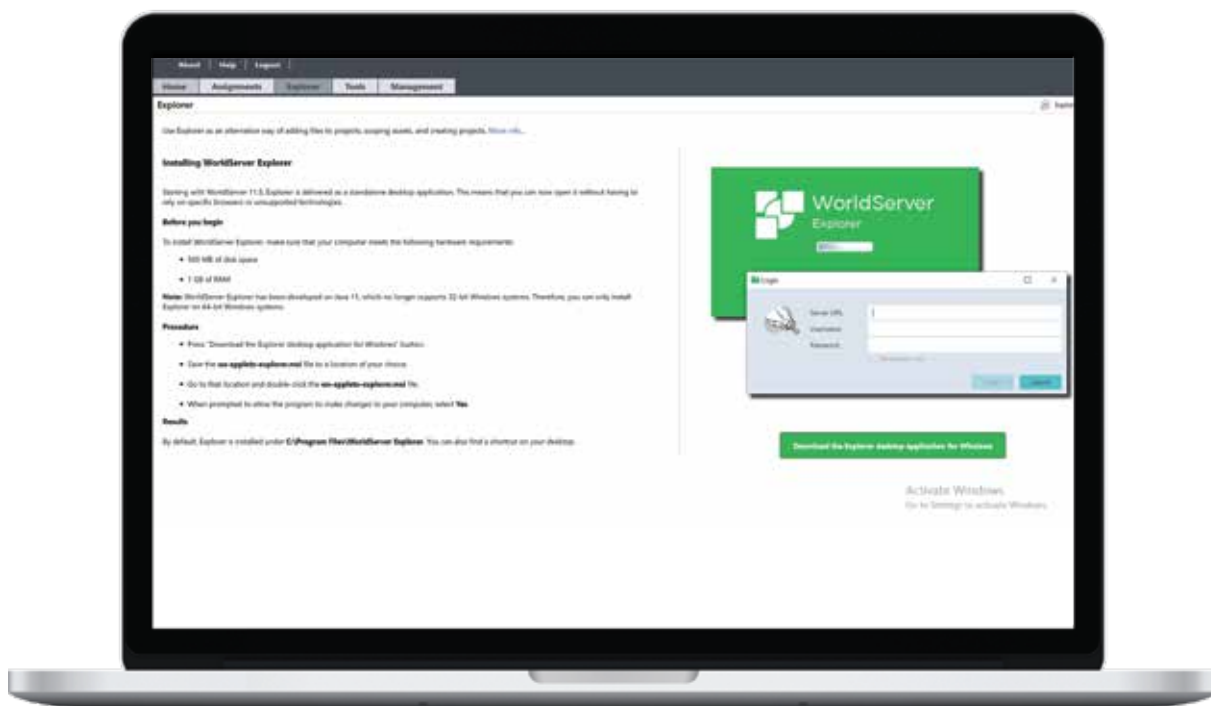

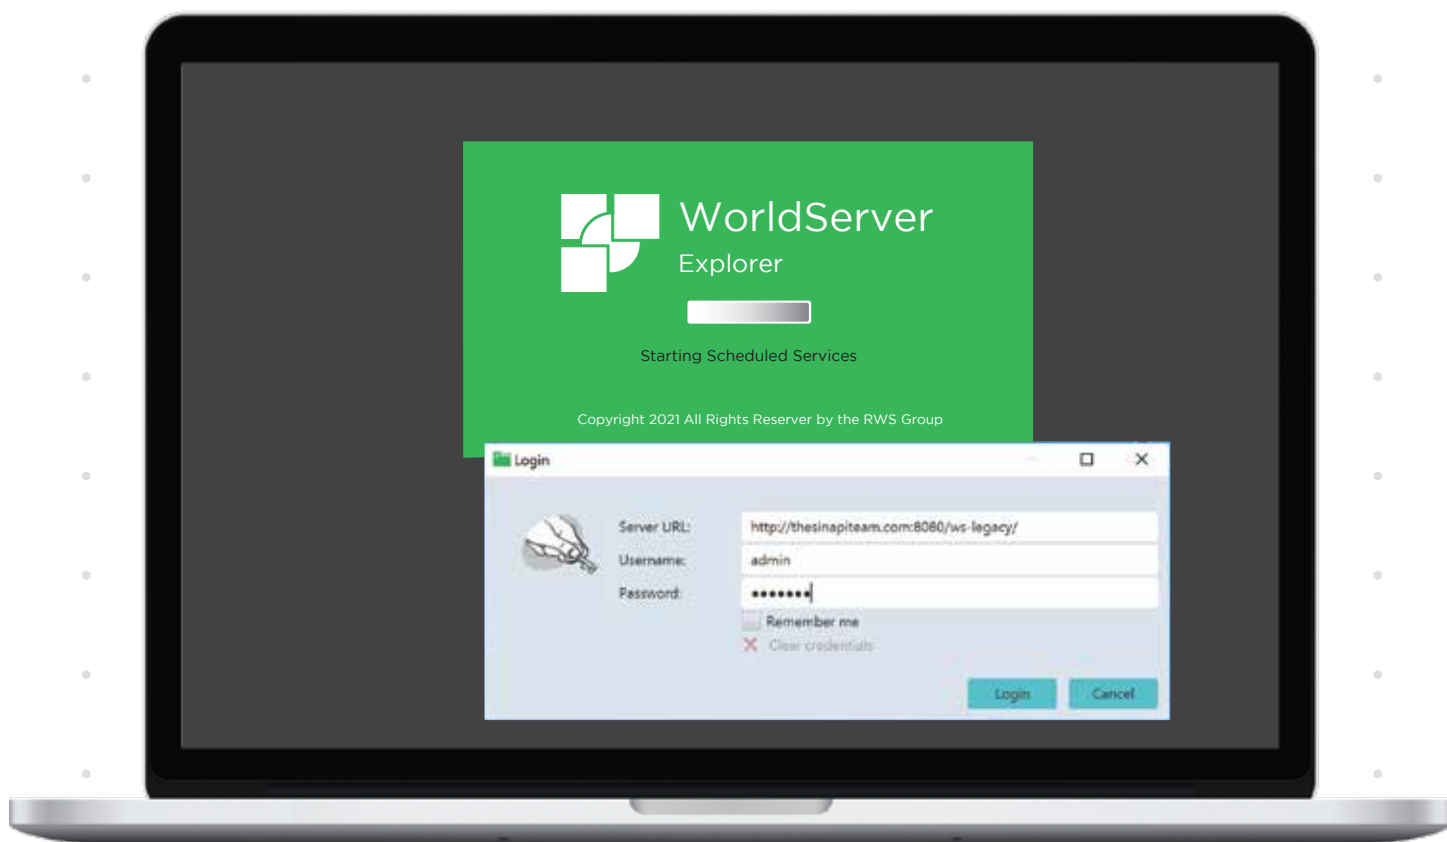

# 5. Explorer

# 5. Explorer

Information has been added to the Explorer section.

# 6. Online Editor

## 6. Online Editor

### **\_From 11.6.1**

Terminology

### **\_From 11.7**

The Verification Service has been added.

Selecting several tasks at once is now released in this version.

<< Task 3 of 60 >>

**We're different.  
So your brand stands out.**
